Profile

IT professional with a B.Sc. in Computer Science and over four years at Itel across service desk, Jira administration, and procurement with vendor coordination. Builds and deploys web applications and APIs with Python, Django, FastAPI, and PostgreSQL, tested with pytest and Selenium. Currently teaches programming and IT to CSEC and CAPE students. Seeking an IT Applications Administrator role.

Core Skills

- **Application administration:** Jira administration, workflow configuration, dashboards, filters, and reports
- **Support and troubleshooting:** Level 1 and 2 incident and problem management, Windows workstations, VPN, Wi-Fi, TCP/IP, DNS
- **Vendor management:** Supplier evaluation and selection, purchasing, vendor coordination, pricing proposals
- **Web, APIs, and databases:** Python, Django, FastAPI, REST APIs, JWT authentication, PostgreSQL, SQLite, SQLAlchemy
- **Delivery practices:** Git, Agile workflows, test-driven development, deployment on Render with Gunicorn
- **Familiar with, building depth:** cloud platforms, CI/CD, security and compliance practices

Experience

IT and Computer Science Teacher · Cornwall College, Montego Bay · Sep 2024 – Present

- Teach CSEC Information Technology (Grades 10–11) and CAPE Unit 1 (Grade 12): databases, networking, computer systems, and programming in Pascal, C, and C++
- Explain technical concepts to non-technical learners and provide one-on-one support for students who need extra help

- Automate document generation and grading workbooks with Node.js scripts

Procurement Officer · Itel, Montego Bay · Feb 2022 – Sep 2024

- Selected and managed suppliers on quality, cost, delivery efficiency, and sustainability
- Handled purchasing and inventory control in Asset Tiger and improved procurement workflows
- Coordinated shipments from the US to Jamaica, Guyana, Honduras, Belize, and St. Lucia
- Analyzed financial reports and prepared pricing proposals to improve cost efficiency

Service Desk Technician · Itel, Montego Bay · Apr 2021 – Feb 2022

- Managed problem and incident resolution, analyzed recurring issues, and implemented fixes
- Configured, maintained, and optimized Jira workflows supporting Agile delivery and business processes
- Built Jira dashboards, filters, and reports for project visibility and performance tracking
- Escalated complex issues to specialist support teams

Service Desk Analyst · Itel, Montego Bay · Apr 2020 – Apr 2021

- Provided Level 1 and Level 2 support for hardware, software, network issues, and Windows workstations
- Diagnosed and resolved system errors, application failures, VPN, Wi-Fi, TCP/IP, and DNS incidents

Projects

- **compile/** (Django, PostgreSQL, Bootstrap 5, Render): Solo-built and deployed an exam-prep platform for CSEC and CAPE students with a quiz engine, progress dashboard, and tested authentication flows
- **PokeDatabase** (Django, Selenium, PokéAPI): Built a Pokémon encyclopedia with a staff-only data sync from an external API, a service layer separating data access from views, and unit and Selenium functional tests
- **Penny** (FastAPI, SQLAlchemy, Flutter, pytest): Building a finance tracker with a REST API, JWT authentication, and budget alerts; fixed a bug that exposed a password hash in an API response

Education

- **Post Graduate Diploma in Education and Training**, Vocational Training Development Institute, Kingston · Sep 2025 – Present
- **B.Sc. Computer Science**, University of Technology, Jamaica
- **Certificate in Logistics and Supply Chain** (Fundamentals, Design, Operations)
